

API інтеграція з Facebook | отримання ключів/токенів

Коли отримую токен від ФБ він діє тільки 1 добу. Тому потрібно запитати новий токен (який видається на 60 днів).

```
oauth/access_token?grant_type=fb_exchange_token&client_id=APP_ID&client_secret=  
CLIENT_APP_SECRET&fb_exchange_token=FIRST_TEMP_TOKEN
```

The screenshot shows the Facebook App Settings interface. On the left, a sidebar contains navigation links: Dashboard, Required actions, App settings (highlighted with a red box), Basic, Advanced, App roles, Alerts, App Review, Products, Marketing API, Activity log, and Activity log. The main content area displays the app's configuration. At the top, it shows the App ID: 1052815923002811, App Mode: Development (with a toggle switch), and App type: Business. Below this, a red box highlights the 'App ID' and 'App secret' fields. The 'App ID' field contains the value 1052815923002811, and the 'App secret' field contains a masked value (*****). Other fields include 'Display name' (keitaro-2_19_09), 'Namespace', 'App domains', 'Contact email' (quiogazbd305412@hotmail.com), 'Privacy Policy URL' (Privacy policy for Login dialog and app details), 'Terms of Service URL' (Terms of Service for Login dialog and App Details), 'App icon' (1024 x 1024), and 'Category'. At the bottom, there is a 'Verifications' section with a 'Business verification' link and a 'Start Verification' button.
